Student with a background in mathematics and a lifelong passion for football. A reliable individual with competitive futsal experience, focused on accuracy and attention to detail.

EDUCATION

Budapest University of Technology and Economics	2025 – 2027
M.S. in Computer Science Engineering	Budapest, Hungary
National University of Mongolia	2021 – 2025
B.S. in Applied Mathematics	Ulaanbaatar, Mongolia

FOOTBALL BACKGROUND

- **Semi-Professional Experience:** Spent one year training and competing in the Mongolian Futsal Secondary League as a goalkeeper. Though primarily a substitute, I gained a deep understanding of match preparation, tactical awareness, and the flow of the game from a professional perspective.
- **General Sport Knowledge:** Extensive knowledge of the Premier League, Serie A, and Champions League. Active follower of European football and the NBA, with a strong ability to identify players and understand their roles on the pitch.

EXPERIENCE

National University of Mongolia Research Lab	2023 – 2025
<i>Lab Lead & Student Assistant</i>	
– Data Analysis: Heavily utilized Python and dataframes to process, clean, and analyze research datasets.	

SKILLS

Football:	Deep understanding of rules, player positions, and match events.
Reliability:	Strong record of attendance and meeting deadlines in my university studies.
Technology:	Proficient with smartphones and mobile applications.
Languages:	English (Fluent), Mongolian (Native).
Availability:	Flexible to travel and work during evenings and weekends.
